Summary

I'm a results-driven Senior Frontend Developer with 6+ years of experience designing, developing, and optimizing high-performance web applications. I specialize in JavaScript (React, Next.js, Vue), WordPress development, and frontend performance optimization, with a strong track record of leading teams, streamlining workflows, and delivering scalable solutions.

Beyond coding, I bring professional admin experience and a deep passion for enhancing user experiences, implementing best practices, and staying ahead of emerging technologies. I thrive in collaborative environments, working with cross-functional teams to drive business growth, boost lead generation, and strengthen user engagement through technology-driven solutions.

WORK EXPERIENCE

EverCommerce
